

Invented for life

BOSCH

AUTOMATED NIGHT WATCH SURVEILLANCE KITS

DETECTION AND DETERRENCE

Experience unparalleled security with Automated Night Watch – the revolutionary machine learning kit engineered for precision and efficiency. Seamlessly integrated for your peace of mind day or night, its multi-imager technology swiftly detects motion, alerts the PTZ, and activates the white light illuminator to deter potential intruders. But it doesn't end there. Immediate audio intervention with recorded or live messages played through a nearby loudspeaker may deter unauthorized individuals before the authorities need to be alerted. Take control with Automated Night Watch and step into the future of security.

- Multi-imager equipped with deep neural network detectors gets the PTZ pointed in the right direction.
- AI Intelligent Tracking provides high pixel density on the intended target while ignoring other object types.
- White light illuminator allows the camera to see better, but, more importantly, lets the intruder know they're being watched.
- IP speaker adds a level of engagement and deterrence.

Typical applications:

Retail parking lots

Car dealerships

Equipment storage

Athletic fields

Agricultural spaces

Corporate campuses

College campuses

Private aviation

Construction sites

Mobile surveillance

Built-in artificial intelligence (AI)

Intelligent Video Analytics (IVA) Pro Perimeter

Exceptional imaging

starlight, IR with LED illuminator (up to 1804 ft)

Robust design

Resists shocks, vibration, and corrosion

Trusted

Highest built quality and data security

AUTOMATED NIGHT WATCH KITS

Imaging device specifications:

									
MIC-7602-Z30WR	HD 1080p (1920x1080)	2MP Sensor size	30X 6.6 - 198 mm	Image stabilization algorithm	30 fps	HDR	starlight	IR w/LED illuminator	IVA Pro Perimeter

									
NDM-7702-AL	HD 1080p (1920x1080)	4MP 4 x 3 MP	AVF	3.7 - 7.7 mm	30 fps	HDR	Built-in Audio	IR	IVA Pro Perimeter

Ordering guide:

Pole mount kit

KIT-ANW-POL

Corner mount kit

KIT-ANW-CNR

Each kit includes:

- Hardware
- Push notifications
- Mounting brackets
- Storage
- Licensing
- Pro Services
- No server required
