

Our focus is to keep
your video data secure

Credentialed High Assurance Video Encryption (CHAVE™)

- ▶ Cyber secure IP video solution for mission critical applications and critical infrastructure protection
- ▶ Combines the first U.S. federally-trusted PKI certificate-based IP cameras from Bosch that meet FIPS 140-2 Level 3 certified encryption with Genetec Security Center with multi-factor authentication
- ▶ Provides highly-secure identification and authentication through multi-factor smart card credentials
- ▶ Resilient against malware, brute force cracking and other exploit techniques
