

ORION

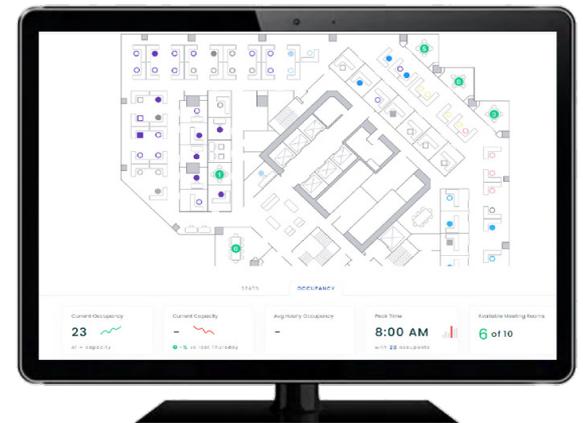

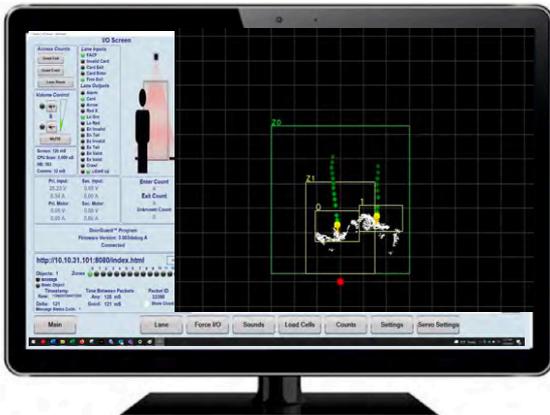

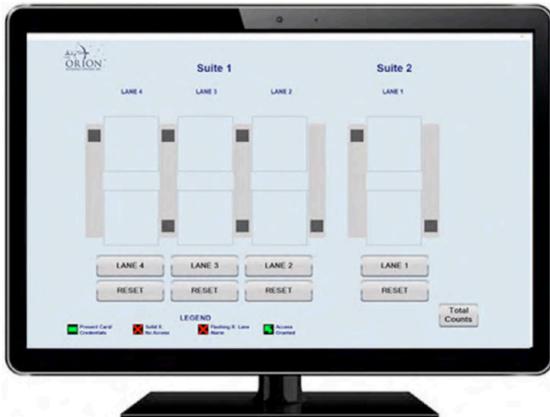

Infinity was developed to help our users better manage the complexities of the entrance control in ways that reflect the ever-changing challenge of ever-evolving security realities.

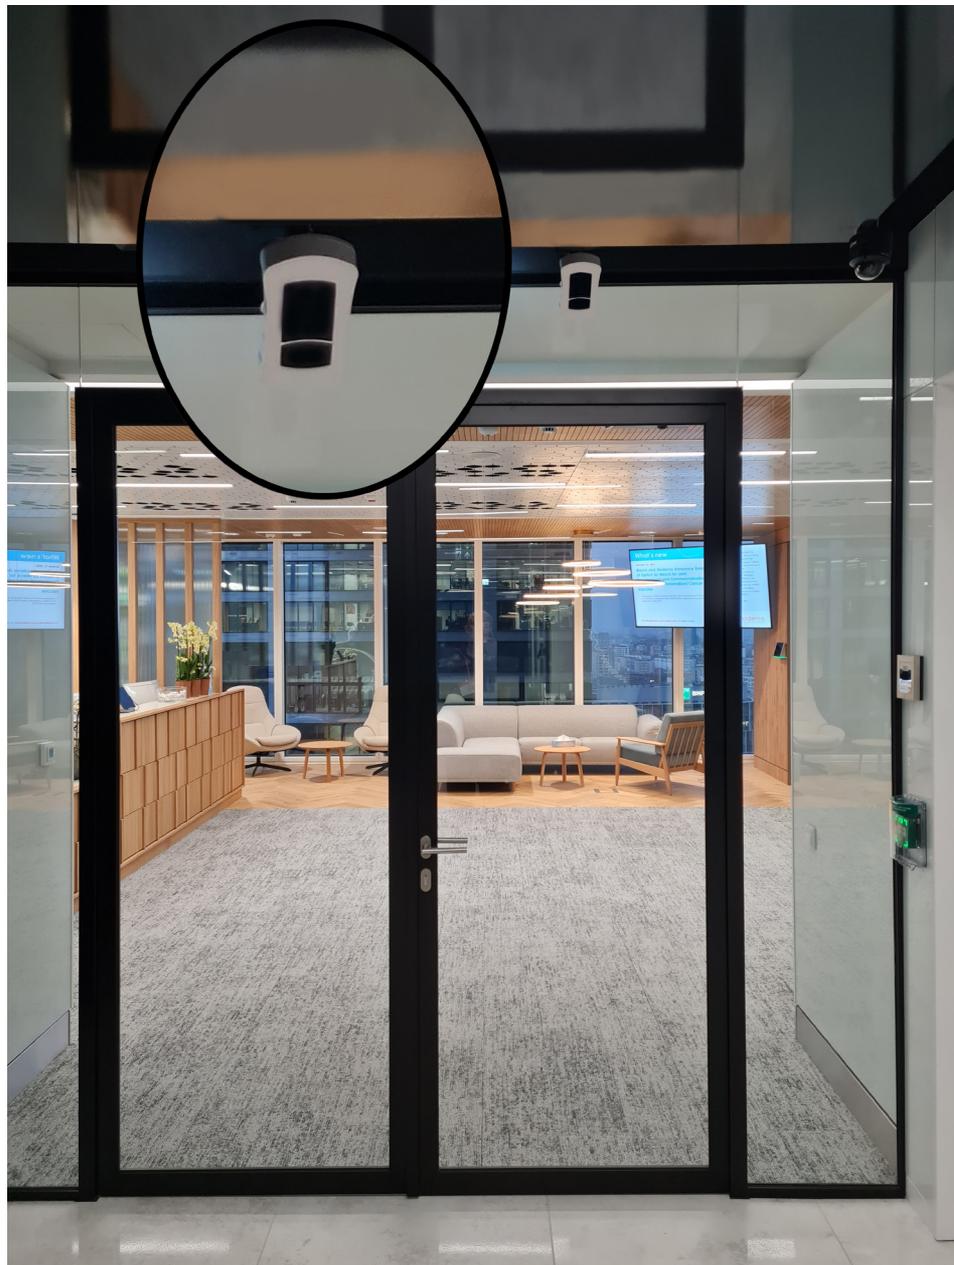

- Data / Metrics can be configured and monitored
- Remote Lane Control that can be reconfigured quickly
- Internal Diagnostic Tools for maximum up-time
- Sounds associated with alarms can be customized for superior alarm recognition
- Accurate people counts help keep people safe and secure
- Lifetime tech phone support

Infinity provides unmatched flexibility and capability across our entire suite of entrance solutions.

Command and control on a single pane of glass. What do you need infinity to do?

Orion gives you total command of your entrance control investment to account for the long life of these products and the changes that can happen. Infinity makes all the difference in providing superior value to your spend.

Orion's Core Values

- **People First** - We strive to improve the lives of our customers, partners and team through empathy, thoughtfulness & action.
- **Remove Friction** - We identify friction in our communication and processes then collaborate to permanently remove it.
- **Excellence is All** - Everyone at TEAM ORION has the responsibility and authority to provide better when better is possible.
- **Effective Communication Creates Remarkable Experiences** - Taking ownership, we communicate to the right people at the right time utilizing the proper methods.

www.orioneci.com

Create Remarkable Experiences, one Project at a time. Our responsiveness, and our Yankee can do attitude drive the technology we develop as we look for ways to meet your needs. As you can see from this LookBook, we do projects other leaders can't or won't do. Let us consult with you to create together a deliberately different experience that will bring you back again and again.
