

Net-BPS

Orion Power Systems

Network Backup Power Supply

The Orion Power Systems Network BPS provides cost effective power backup serving the IoT (Internet of Things), eDR (edge Disaster Recovery) IP Video surveillance, VSaaS (video surveillance as a service) Cloud Computing, SCADA, Cyber Security and more.

Common uses:

- Cameras with SD cards will keep recording locally
- PoE access control unit will keep reader and lock operating
- PoE injectors will remain powered
- Wireless access point backup

Product Snapshot

Power Rating	15 watt
Input	POE / 12-24VDC / 24VAC
Output	Backed-up PoE only Backed-up Auxiliary 12VDC only Backed-up PoE & Auxiliary Simultaneously
POE Standard	I/O – Drop of External power I/O – Battery power level IEEE 802.3af
Backup Time	1 hour backup at 11 watt load 2 hour backup at 6 watt load
Operating Temperature	32F to 122F (0C to 50C)
Humidity	Up to 85% relative, non-condensing
Dimensions	5.19" x 3.85" x 1.18" / .65 lb.
Manufacturer Part #	NET-BPS

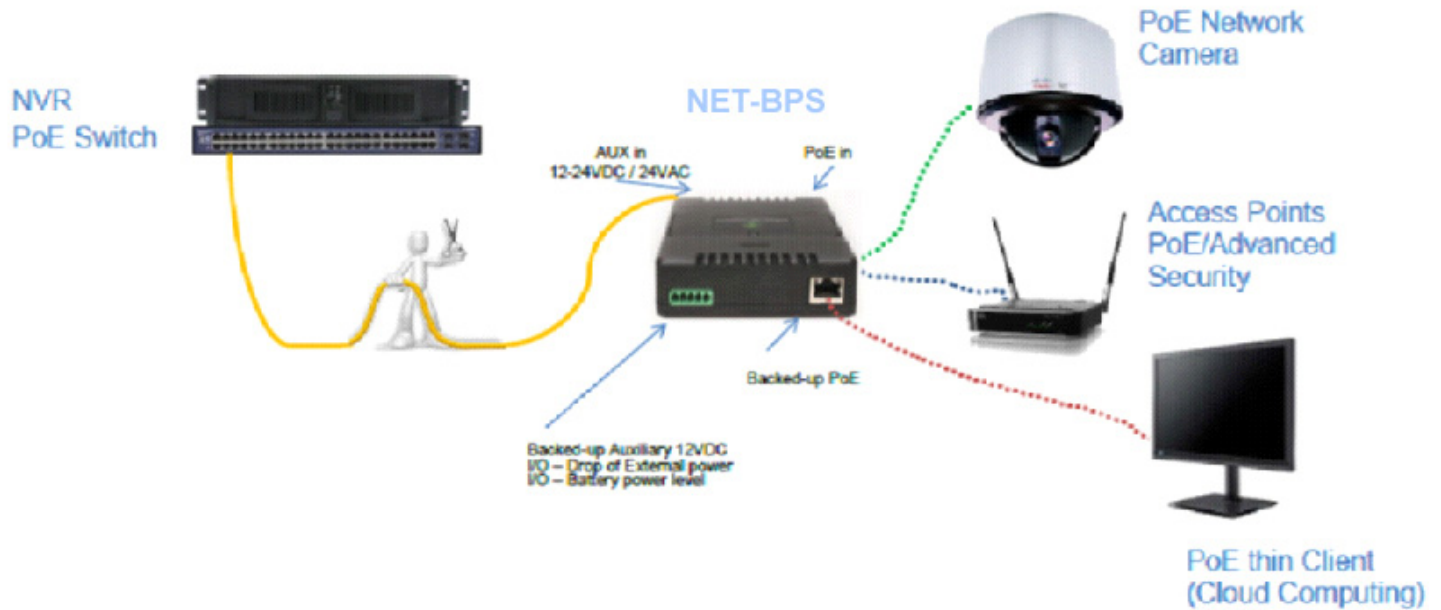

Features

- PoE input powered by PoE power
- Contact closure on power drop
- Contact closure on low battery
- LED indicators for power active and power backup active
- Auto configuring 10/100/1000 Mbps
- Backup PoE and auxillary simultaneously

Typical Installation

Net-BPS is a IP edge PoE UPS & 12-24VDC/24VAC Midspan PoE UPS.

24 Month Warranty and Protection

Orion Power Systems 24 Month Warranty

Count on Orion to provide worry free emergency power for your network devices. Orion Power Systems offers 24 month warranty on electronics and battery. No hassle warranty ensures fast replacement.
