

PROFESSIONAL SERVICES

Powered by MidChes

Whether it's your first video management system installation or the installation of a security desk, our Professional Services team is available to supplement your security installation and maintenance resources.

Your project is important, no matter the size.

Partners leverage this service to supplement their technology experts or expedite an installation schedule with our trained and certified team.

- **System health checks and updates/upgrades**
- **Head-end hardware deployment**
- **Command center furniture installation**
- **Video and security system troubleshooting**

"It's plug and play."

"Just move it over there."

Simple statements. Big challenges.
