G SERIES

Seriously protective.

1 >> 3

INTRUSION

ACCESS CONTROL

FIRE

When it comes to greater intrusion detection, less is more.

You can't be in 32 places at once, but the Radionix G Series can. Bringing intrusion alarm, access control and fire alarm all in one centralized place, our intrusion detection connects every component of your system to automatically arm, disarm and alert you of activity—helping you save time, reduce costs and eliminate worry. Together, we're creating a future where safety and confidence are uncompromised.

Beyond intrusion. Beyond compare.

Your building is more than the sum of its functional spaces. It holds the people, goods, systems and operations that keep business moving. That's why the G Series is so much more than a control panel. It's seriously protective, beyond intrusion.

Safeguarding people.

Even in a tech-driven world, our commercial security is deeply human. Because when employees, customers and occupants feel secure, business thrives.

Detecting efficiency.

While you juggle everything from perimeter doors to energy costs and day-to-day business, the G Series streamlines security with a single smart solution—no blind spots, no compromises.

Protecting goods and merchandise.

From IT infrastructure to high-value assets and more, what's yours is in good hands with best-in-class security. From the inside out.

Powering your productivity.

With only one system to install and manage, you can rely on powerful integration that supports, adapts and empowers your business to focus on what matters. We'll secure the rest.

How Seriously Protective is seamlessly smart.

INTEGRATION

One system, not three.

Intrusion alarm, access control and fire alarm integrated all in one place saves time, reduces costs and eliminates worry.

CAPACITY

Protection without limits.

The G Series scales to secure up to 599 devices, 32 individually controlled areas, 2,000 users and 32 access-controlled doors.

COMMUNICATION

Security that listens, informs and responds endlessly.

Built-in IP communication and direct IP camera integration, flexibility of ethernet and cellular connectivity.

CONTROL

Streamlined security in the palm of your hand.

The BSM mobile app gives complete control from anywhere to access cameras, get real-time alerts and enable custom functions.

FOR RETAIL, EDUCATION, FINANCIAL, COMMERCIAL SECURITY AND BEYOND.
