

See How Orion Online RT / RTX Stacks Up Against the Competition

Stretch your IT budget without sacrificing the features and quality you need. Online RT / RTX are available from 1000VA to 3000VA in a rack / tower design. The Online RT / RTX series provides advanced online power quality at a line interactive price point. Not only that, all Online RT / RTX models are factory load tested immediately before shipment to assure no out of box failures.
